Professional Summary

Craig is a self motivated and disciplined Information Technology and Cybersecurity student with a strong foundation in network security, hardware and software management, risk management, and system protection. He is actively enhancing his technical expertise through academic study and online certifications.

Craig demonstrates practical knowledge in cybersecurity fundamentals, threat awareness, and secure system practices. He has advanced knowledge on computer hardware and computer systems. Handles complex problems that involves troubleshooting hardware and software. He is seeking entry-level opportunities in IT Support, Cybersecurity, or Digital Technology roles where both his technical and creative skills can add value.

Key Skills

Technical Skills

- ❖ Cybersecurity fundamentals (risk awareness, system security concepts, threat detection)
- ❖ Troubleshooting and resolving hardware, software and network issues.
- ❖ Advanced networking concepts (LAN/WAN, TCP/IP, firewalls)
- ❖ Microsoft Office Suite (Word, Excel, PowerPoint) & Google workspace
- ❖ Basic coding (Python for automation and security scripts)
- ❖ Secure system configuration and user access management
- ❖ Familiarity with online security tools and practices

Soft Skills

- ❖ Problem-solving and analytical thinking
- ❖ Clear communication and teamwork
- ❖ Time management and adaptability
- ❖ Attention to detail and accuracy

EDUCATION

Diploma in Cybersecurity - *Trust Academy (Currently Studying)*

Information Technology Certificate - *Harare Polytechnic (2023)*

CERTIFICATIONS & TRAINING

Introduction to Cybersecurity Certificate – Trust Academy (2024)

Ongoing online learning in network security, ethical hacking basics, and cloud security awareness.

PROJECTS

Personal Learning Projects

- ❖ Studied system security concepts and cyber risk awareness
- ❖ Practiced secure password management and user authentication methods
- ❖ Practiced and executed system updates and full system backup
- ❖ Practiced network routing and management
